Thurs ^d 30	110	W ^t	Modest and clear. People &c as before - ~~Adm^l~~ Healed alongside the Hulk and took the mornings in - Got the Tops overhauled. - Emp ^d at the rigging Heavy rain -	
May				
Friday 1	111	W ^t	Modest and cloudy. People &c as before. Set up the main and Mizon rigging. ~~Adm^l~~ Light breeze and clear - Rigged the Crosspit T ^o 1 st 8 th and T ^o 1 st 8 th , Copied the lower Parts - HMS Boyne, took fire at Spithead and down to the EP - - - - - Healed &c and placed the Iron Ballast -	

The Hold of HMS Phaeton as stored May 1795.

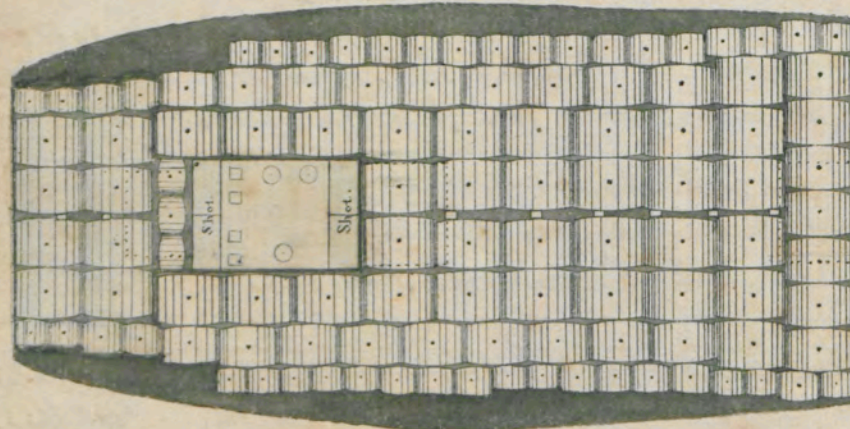

Iron Ballast.

The Iron Ballast begins at middle of Pump Mill, and runs forward near longer in a line with the octahedron of it - rising eighteen feet in the stern foremost longest, decreasing in the foremost. The riders beginning from same place and rising 14 feet amidships, decreasing 7 feet for the convenience of storage. The draught shows the Ground Tier on Starboard side and the riders or second Tier on Port side. The Ground Tier contains 382 Tons. The second Tier 206. On lower deck for shifting 40. Total of Iron Ballast 558. Which equals 79,71 Tons.

About 45 Ton of Shingle Ballast is loaded to 5 or 6 inches above the Sill from Foremost Bulkhead to that of the After Hold (after Bulkhead).

Ground Tier of Water.

The Ground Tier contains the following Casks -
 Leaguers 40 contain 30.0
 Butts 23 11.5
 Pouches 2 0.75
 Barrels 26 4.82
 Half Hhd. 19 2.31
 Casks of 9. Tier 49.44

Amongst which there is stored 90 Ton of Shingle Ballast meeting in all of Shingle Ballast 135 Ton.

The Fore Hold contains three longers of Butts or four of Pouches - in the lower Tier of which is contained 30 Butts = 15 Ton.

Next 8 32 16
 Upper Tier when stored with Butts 51 17
 Main Hold when all stored with Butts of water (then was being Brought Sea down) 48 24
 Ground Tier 49.44

Total contents 121,44 Ton.
 The Main Hold contains less than it ought, from a large quantity being taken off on each side - The left Hold, & Spirit room contain 6 tons of provisions & stores.

Course D Lat. 0 Let A Longit. Bearings &c. { 22. to the Southward, notwithstanding the Log line being corrected, there either an error or some other cause. }
 N. 24° E 184 48.34. 48.55 7.9 W. Sailed N 42° E. 37 lee!

H	K	F	Course	Winds	Saturday April 2 nd 1796
1	10	.	ENE	SW	Fresh breeze and cloudy - Made sig. to prepare to sound - 1/2 noon
2	.	.	ENE		Low down the S. and sounded 75 fms fine white & yellow sand - The other ships had the same soundings - The depth of water agrees well with my cut - but the quality of bottom - The Master being now here above the other sound of me, in took the mean of our soundings which makes the soundings agree to both in depth and quality, when therefore we supposed ourselves to be - but which was wrong - See quality of the day. at 7 pm - (1) Close up the S. down 74 fms by Bouch and set courses - (2) Came along N 30° West - (3) Closed the S. 30° by the fork at 2 1/2 M. at it - (4) at mid. S. at 3 - (5) Spoke the ship - heard by a good timpan in T. 28 M. at noon - with which I agreed within 1/2 consequently the Master's soundings are those in track in, and the quality of them is wrong - (8 to 12) Heard blue lights - Cloudy weather (12) light breeze - (3) Set 75 fms up 74 fms -
